

Business opportunities in the Brazilian Green Hydrogen Market

The Brazilian green hydrogen market could be worth \$30 billion by 2050. On the behalf of Switzerland Global Enterprise, EBP Brazil identified the business opportunities for Swiss companies arising from the local conditions and strategies in Brazil.

Our Services

- Analyzing literature
- Identifying potential Swiss suppliers
- Conducting Interviews with the potential suppliers and stakeholders in the Brazilian Market (government, university, industry)
- Summarizing all Results in a Report
