

Shaping the future together

BSc Intern, 80-100%

For our Environment + Water Division in Zurich

Your contribution to our team

We are looking for an intern to collaborate in projects in our Environment + Water Division. An initial project will require Russian language capabilities. The sooner you can start working, the better.

Your skills

- You speak, read and write Russian
- You have a valid working permit for Switzerland or are entitled to a permit S
- You hold a BSc in engineering, natural or social sciences
- Your language capabilities include English
- You have an interest in the areas of environment and water

Enthusiastic about common goals

We work in many areas, ranging from consulting to planning, construction, IT and communication. More than 300 employees in Switzerland develop solutions to meet the challenges of our intensively-used living spaces. We have been making relevant contributions to sustainable development since 1981.

Our team works closely together with customers to develop interdisciplinary concepts. We apply this approach to all our projects: working together with pleasure and curiosity.
